

## **For Immediate Release**

### **Adacel to unveil innovative solutions at World ATM Congress 2019**

**Orlando, Florida, March 4, 2019** – Adacel Systems, Inc. will return to the World ATM Congress 2019 to showcase the company's latest products and service developments to its current and future customers.

At the show, the company will unveil major improvements of its signature MaxSim Air Traffic Control (ATC) Training Simulator as well as the latest developments related to Adacel's Air Traffic Management (ATM) solution – Aurora.

MaxSim's most recent enhancements showcase a newer, modern look, a wide range of screen customization options, and a friendlier and more intuitive navigation, taking the experience with the world's most advanced ATC training simulator to a whole new level.

Originally developed for oceanic ATM, Adacel's Aurora system has evolved into a cost-efficient solution for en route, approach and tower control and is well-suited for smaller countries and island nations. The system incorporates the latest in CNS/ATM technologies, including space-based ADS-B.

In addition, as Adacel continues to focus on Air Traffic Management solutions, the company will unveil an array of new products aimed at improving air traffic safety and assisting Air Traffic Management professionals in their day-to-day operations. Among its new products and services, the company will unveil a new low-cost aeronautical billing and permitting solution.

The World ATM Congress 2019 will take place from 12-14 March, 2019 at IFEMA, Feria de Madrid, Spain. To learn more about Adacel's latest innovations and solutions, please visit the company's booth #598.

#### **About Adacel**

Adacel applies the knowledge of our customers and the expertise of our team with cutting-edge technologies to be the company of choice for advanced air traffic management systems, speech recognition applications and simulation and training solutions for air traffic control and other public safety domains.
